Country Throwdown

Great country music with simple line dance-inspired moves. If you want to lose weight but have been waiting for the simple, fun program without burpees, pull-ups, or hip-hop backflips...You're gonna LOVE Country Throwdown.

Curls and Crunches

Curls & Crunches is a dynamic, strength-centered workout that blends cardio, muscle toning, and core training for a balanced full-body session. Class begins with a cardio warm-up, then progresses into strength intervals using a variety of equipment—including dumbbells, light barbells, resistance bands, and occasionally exercise balls—depending on the instructor's format for the day. You'll challenge your midsection with both standing core work and mat-based core and bridge work, completed either early or later in the class, based on the workout flow. Expect targeted lower-body toning, functional strength training, and a satisfying stretching cooldown to finish. Perfect for all fitness levels, with modifications and equipment options always provided.

Group Cycling

A superior cardiovascular workout which incorporates different levels of resistance, speed and intensity. Participants are encouraged to cycle at their own ability level.

Focusing on spinal alignment and strengthening abdominal and back muscles, Pilates builds strength without excess bulk, creating a sleek and toned body. Appropriate for all fitness levels.

REFIT®

REFIT® combines several elements of fitness into one power-packed hour. While the focus is structured around cardio dance movements, toning and flexibility, strength training and stretching are also incorporated into the REFIT workout. The workout formula is easy to follow and will both challenge fitness enthusiasts and welcome beginners.

SilverSneakers® Classic
